TO WHOMSOEVER IT MAY CONCERN

This is to certify that Aryan Parekh has been working with Trinite as a co-founder and a full-stack web developer in our Web Development department for more than a year, starting **from June 19, 2021**.

Aryan has contributed to numerous Trinite-related initiatives. He also contributed to Trinite's initial undertaking. It was an E-commerce website. He assisted in maintaining the highest levels of professionalism by regulating the client negotiations in a very formal manner. Additionally, he worked to complete the front-end and back-end setup of the E-commerce website well in advance of the deadline. To assure the project's outstanding quality, he simultaneously carried out the necessary unit and integration testing. Besides these features, he also made a special admin section for the clients where they could control and change the product details on the website. After speaking to the client, he accepted the remarks. He started working on the website again immediately, demonstrating his unwavering professionalism and desire for success to make the necessary improvements. He has worked on four more projects besides this one, including two websites for logistical firms, one for a travel agency, and one for an InfoTech firm. His contribution to these projects was equally outstanding. Aryan is an honest, diligent, and responsible employee of Trinite. He has always upheld the highest standards of professionalism with the group and his co-workers. Additionally, he maintained a learning attitude throughout his term. His ability to master new talents on his initiative, confidence in his abilities, and remarkable charisma made him a terrific team player.

We would delightfully recommend him in this capacity. Please do not hesitate to contact me anytime for any further referral on my mail ID: nitya.jain@trinite.in.
